

CHEMTECH ENVIRO TANK

Chemtech EnviroTank is a self-supporting tank designed for temporary containment needs resulting from hazardous oil or chemical spills. Chemtech EnviroTank is an open top tank used for temporary storage for most hazardous liquids. Easy filling or removal of contents through standard 3" NPT valves; 2 per tank.

Made from the 30 oz. Tough, reinforced, industrial grade polyurethane coated polyester fabric material. Chemtech EnviroTank will contain most industrial chemicals. (Contact us for specific usage.) Our unique manufacturing capabilities allow us to manufacture a superior product at cost-effective prices.
