Media, PA 19063

Dear Kosh:

Thank you for coming to our assistance in providing your product OdorGone for our use at our hotel at such a critical time.

As you can recall one of our goals was to return forty (40) of our smoking rooms into non-smoking rooms in time for the Board of Psychiatry and Neurology Convention. Merely masking the smell with a perfumed chemical was not going to be good enough as we were very concerned also about the type of chemicals being used.

We were very happy with the results of your naturally made OdorGone product as it successfully neutralized all the odors and eliminated the smell of cigarette smoke. We had no complaints on the rooms we converted to non-smoking. As a result of this we have begun to use it in our bathrooms, guestrooms and other areas to eliminate malodors as well.

Once again, our sincere thanks for introducing us to this product and we look forward to seeing you to introduce us to a demonstration of its wide use.

Thank you

Sincerely

Vijnan Chandra
