### Testimonial Letter

This letter gives reference to the product **OdorGone** produced by **Chemtech International Inc.**

**Malév** has been purchasing OdorGone from the local agent of Chemtech since the 4<sup>th</sup> quarter of 2004 and will continue buying it in the future.

OdorGone in spray bottles was tested in 2004 on board of Malév aircrafts with good results. **It solved the malodor problems in the cabin and in the lavatories cost-effectively and natural way.** The product contains only natural oils, has soft and fresh fragrance, and doesn't contain alcohol. The cleaning staff and our cabin crew can use OdorGone freely before departure and during the flying time when needed.

With best regards.  
Marianna Lenkei  
In-flight service development manager
