Mr. Kaushik Daphtary  
Chemtech International Incorporated  
P.O. Box 156  
Lima, PA 19037

Dear Kaush:

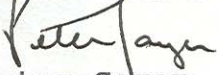

As you are aware, we tested many types of presscake boxes before deciding to standardize on your Dolav boxes.

The stacking of these boxes on racks 3 high, the low cost of maintenance, the extreme ease of cleaning thereby reducing contamination, as well as other factors have all contributed to the huge success we have experienced with these boxes.

I would, however, like to thank you for an additional benefit we received with the Dolav boxes that we had not calculated on, and that is the energetic attitude and vast experience you have supplied us with, a benefit that exits right up to the present.

I thank you for the service and product you have supplied us with and will be more than happy to give my highest recommendation to the Dolav/Chemtech combination.

Very truly yours,

  
Peter Gayer  
Plant Engineer
