Dear Kaush:

It is my pleasure to be able to write a letter of recommendation for the Dolav presscake boxes. We have about 150 boxes in service at the present time. These boxes are used to store and transport dyestuff presscake in our Reading and Gibraltar facilities. These boxes have been in service for about twelve months.

The boxes are strong and durable. We have had no breakage or need to repair any of the boxes in twelve months. We store about 1,000 lbs. of presscake in each box and stack the boxes two high, full, to save space in our press room.

These boxes have resulted in significant cost savings since the cost to repair our old FRP boxes was more than the cost to replace with the Dolav containers.

Corrosion resistance has been excellent. Many of our presscakes are highly acidific.

We are satisfied with the overall performance and plan to purchase additional boxes for shipment of presscake to our Lowell, South Carolina facility.

In summary, we are a satisfied customer.

Very truly yours,

Jack S. Spallone
Plant Manager
