DOVER OPERATION

May 10, 1989

Mr. Kosh Daphtary
Chem Tech International, Inc.
P.O. Box 951
Media, PA 19063-0951

Dear Mr. Daphtary:

I am pleased to inform you of our satisfaction with our 22 Dolav Box Pals, Model 1000S. I appreciate the service provided by ChemTech and Dolav Plastics in adhering to our plant specifications and special design requests.

The boxes are perfect for our application in that they're durable, lightweight, easy to clean and relatively inexpensive in comparison to stainless steel.

The boxes are used to transport 1200 pounds of coconut from processing to packaging. The lightweight boxes are easy to maneuver thereby reducing the potential for back injuries.

These boxes have been in service since August, 1988. We anticipate replacing stainless steel containers with plastic containers as needed.

Sincerely,

Merto H. Robinson
Project Engineer
