

TESTIMONIAL

August 27th, 2002

I have only been using “**OdorGone**” now for three weeks; I wish I had discovered this GREAT product four years ago when I started in the Housekeeping Department.

Lets face it, every now and then you get that one room that just smells; whether it’s cigar smoke, pet odor or just an old musky odor, it happens.

A sample of **OdorGone** was left in my office mailbox so I decided to give it a try. Our hotel had just hosted a pet show and I needed something that worked fast, with **OdorGone**, I found it.

I was very pleased from the moment I used **OdorGone**; the smell was not *too* overwhelming, and whereas most products mask the undesirable odor, **OdorGone** neutralized it and made the odor disappear completely.

Not only am I happy with **OdorGone**’s ability to neutralize unwelcome odors, I am very happy that it is environmentally friendly, as well as non-toxic, to my staff.

Yes, I am stuck on **OdorGone**. I have since used it in my laundry (rinse) cycle, as a floor sanitizer, a fabric deodorizer and even in my carpet cleaning system.

The only regret that I have in regards to **OdorGone**, is that I didn’t discover it sooner. It’s GREAT!!!

Michael Roberson
Director of Housekeeping
