Dear sir ,

I write this letter on behalf of our company , MEDICAP LTD. , to express our satisfaction with the ventilated fiberglass stacking trays we have been buying for the past three years through you.

You introduced MFG FRP trays to our facility in 1994 for drying gel-caps that we manufacturer in Bangkok. Since 1994 till now we have now purchased over 5,000 trays. We would be purchasing more trays in the future as and when needed. MFG trays replaced stainless steel trays we had used in the past. The FRP trays are well made and have been quite cost-effective in our drying operation. The overall quality is excellent.

Besides the good quality MFG trays , I must thank you for lending your continued technical support , expertise and frequent visits to us since introduction of these trays to our plant. Not too many marketing / sales personnel lend as much support as you have given us. We appreciate your integrity and trust - worthy support.

I will certainly recommend MFG's products and Chemtech International Inc. services to other pharmaceutical companies in Thailand.

Very truly yours ,

C.R.Achuthananda
Material Manager
