

MEGA LIFESCIENCES

Date: October 26th, 2011

I write this letter on behalf of our company, Mega Lifesciences Limited., to express our satisfaction with the Molded Fiber Glass FRP Composite ventilated trays for drying soft gelatin capsules we have been purchasing from Chemtech International Inc.

Since 1994 till now we have purchased several thousand trays, and would continue to purchase additional trays in the coming years to meet our requirements. We have been utilizing MFG trays for the past seventeen (17) years; and are very pleased with the performance, durability, long lasting, quality and usefulness. As a manufacturer of soft gelatin capsules in Thailand, we are very cost conscious. Chemtech has provided us with high quality MFG trays, maintained price consistency over the years and offered excellent customer service.

We have known Chemtech's staff, namely Mr.Kosh Daphtary, President & CEO, Mr.Neel Daphtary and Mrs. Surma Daphtary for many years. Besides introducing the good quality MFG products in 1994, I must thank Chemtech staff for lending continued technical support, expertise and frequent visits to our facility. Not too many marketing/sales personnel lend us support as Chemtech's staff have given us. We appreciate their integrity and trust-worthy support.

In view of our experience, we can unreserved recommend Molded Fiber Glass company's trays and totes and Chemtech International Inc. services to other pharmaceutical companies.

Very truly yours,

Reddy Jonnala
Director – Supply Chain
